

Supplement to Instruction Manual

HL 1004 RF-PLUS EX

 II 2G Ex h IIB T6 Gb
 II 2D Ex h IIB T85°C Db

For operation in
explosive atmospheres

- zone 1 and 2 (gas)
- zone 21 and 22 (dust)

Characterised by the product mark

 Zone 1 & 2

 Zone 21 & 22

This supplement for the instruction manual of the basic product indicates that the construction of the product is in accordance with the safety precautions and that the product is suited for operation in explosive atmospheres - zone 1 and 2, generated by gases, vapours or mist in apparatus group IIB and in temperature class T6.

Or - zone 21 and 22 concerning dust in the temperature class T6.

The explosion proved construction is characterised by the following product mark:

Safety precautions:

Dust, dirt, painting, acid, washout, overload and impacts can lead to a reduction or a total breaking of the earthing of electric/elektrostatic energy. The permanent compliance with the safety-related and technical stipulations, such as e.g. control of the wheel(s) with conductance concerning the above functional disturbances, is the responsibility of the user exclusively.

Additional wheels:

The explosion proved highlifter will have two anti-static wheels with a separate item no.

When reordering anti-static wheels, please state product type and whether the wheel is used as load roller or steering wheel.
